Annex 1: Terms of Reference for the review of the Standardization, Quality Assurance, Accreditation and Metrology (SQAM) concepts in the secondary school curriculum and suggestion of the new areas of SQAM to be incorporated into the secondary education curriculum

1. BACKGROUND INFORMATION

1.1 BACKGROUND
The Government of the Kingdom of Eswatini developed the National Regulatory and Quality Policy (2010) and the Policy Implementation Plan (2013-17). This gave Regulatory and Quality Infrastructure Development (RQID) Department mandate to roll out development of the national quality infrastructure through, amongst other things, support and oversight on the operations of the following aspects of the quality infrastructure: standardization, accreditation, quality management, technical regulations and metrology.

Like in other developing countries, concepts around issues of quality are still unfolding in Eswatini. Currently there is no evidence based information regarding inclusion of standards, quality assurance, accreditation, technical regulations, metrology in the secondary education curriculum. Consequently, students complete secondary and tertiary education with little knowledge or hazy ideas around issues of quality, yet knowledge on these concepts is key in the operations of the business environment where they are ultimately absorbed. Also understanding of quality issues have a direct link to raising the standard of living of the people. When people understand quality issues they are able to make informed decisions in producing and also purchasing goods and services that may have a negative impact on human, animal health and safety and environment.

Core policy statement number 4 of the National Regulatory and Quality Policy states that “The Government of the Kingdom of Eswatini will develop human resources at all levels of the educational system to inculcate the concepts of quality”. In light of this policy objective, and the challenge highlighted above, the RQID Department, working with the Ministry of Education and Training, intends to support review of secondary level education curriculum to include the standardization, quality assurance, accreditation and metrology (SQAM) issues. This will ensure that the quality concepts are assimilated before students finish secondary education. The multiplier effect is that by the time the individuals become players in the industries they would have developed sound familiarity with the SQAM concepts which would help in producing goods and services that enhances competitiveness of local businesses within and beyond Eswatini. Hence, there is a need to inculcate the quality culture through reviewing secondary level curriculum to include standardization, quality assurance, accreditation and metrology.

The Individual Consultant shall be informed of the specific requirements in relation to this, and at the request of the Procuring Entity (s) he shall allow access to information, records and other materials during normal office working hours as the Procuring Entity may require in order to confirm that the work in progress is in accordance with these quality procedures.

6. **Compliance with this contract**

The Procuring Entity will be entitled to seek confirmation from the Individual Consultant, at any time during the delivery of this contract, and for a period of 1 year after its completion, that the Individual Consultant has complied with the terms of this contract. It may also request the provision of reasonable documentary evidence to support this. As stated in article 2.3 of this Contract, the Procuring Entity may delay or withhold payments in the event of non-compliance.

b) the ceiling on the Individual Consultant's liability to the Procuring Entity shall be limited to an amount equal to the contract value but such ceiling shall not apply to any losses or damages caused to third parties by the Individual Consultant's willful misconduct; and

c) the Individual Consultant's liability shall be limited to actions, claims, losses or damages directly caused by such failure to perform its obligations under the contract and shall not include liability arising from unforeseeable occurrences incidental or indirectly consequential to such failure.

Only if such confirmation has been provided, and written confirmation of its acceptance provided to the Individual Consultant by the Procuring Entity, will this remove the obligation to meet the requirements of clause 11.1 of this Contract in full.

10.4 All insurances effected by the Individual Consultant shall be effected with an insurer of good repute and the Individual Consultant agrees to maintain such insurances for a period of 1 year from the completion of the Services under this Contract so long as such insurance continues to be available upon reasonable terms at reasonable commercial rates failing which Procuring Entity shall be entitled to take out insurance itself to cover any potential liability to its own Procuring Entity in relation to the performance of the Services under this
contract. The cost of such insurance shall be a debt immediately due from the Individual Consultant.

In addition, the Individual Consultant shall not make any communication to the press or any broadcast (including, but not limited to, inclusion of information on a website) about the Services without the prior written agreement of the Project Director.

12.2 If the Individual Consultant violates clause 12.1, then (s)he will automatically and legally be held to pay the amount estimated as the minimum reasonable damages resulting from a breach of confidentiality. This is without prejudice to the right of the Procuring Entity to demonstrate that a higher amount of loss has or may be incurred as a result of liabilities held by the Consultant in relation to the Procuring Entity.

13.1 In response to any factors out of the control of Procuring Entity and/or to breaches of contract by the Consultant, the Procuring Entity may at any time, by giving 30 days’ notice in writing, terminate in whole or in part or suspend the Individual Consultant’s performance of the Services.
